Parents, Guardians and Caregivers,

This week marks the end of the first full week of school for students. It has been wonderful to see them eating breakfast in our cafeteria, walking younger siblings to class, and enjoying their IA periods in their IA classrooms! You can feel the excitement each morning as students enter the building. Our educators have been busy crafting engaging activities and lessons for students, and we are off to an amazing start to our best school year yet.

Our soccer players were excited to compete against Moultonboro on Wednesday. This was our first game of the season and our students played hard. It was great to see so many families come out to support our team! In addition, the Heart and Sole Program also began this week. This club focuses on five key parts: body, brain, heart, spirit, and how 6th-8th grade program teammates connect with others. At each meeting, the girls participate in activities and workouts to improve in these five key areas.

Students did a great job this week with NWEA testing, and all students in Grades 3-8 completed their Reading tests. Next week, students will complete their Math NWEA, and the following week our primary students will

be completing STAR testing. For next week's tests, please encourage your student to get enough sleep, eat a healthy breakfast, and to work their hardest on these assessments.

This week also marked our first fire drill of the school year. Drills like this help keep our students safe in the event of a real emergency. Students did a wonderful job meeting expectations. Please talk with your student about the drill and about safety, both at school and at home.

We could not be more proud of our students and staff for an outstanding start to the school year. Our students are at the heart of everything we do at The Paul School, and we look forward to working with you to ensure a safe, responsible, kind and cooperative learning community for all!

Thank you,  
Ivy Leavitt-Carlson  
Assistant Principal
