August 1, 2023

Hello Paul School Families,

Happy August! It is hard to believe that summer is moving so quickly and we will be back in school soon. This summer we have been busy at The Paul School. We had a wonderful summer program and are extremely thankful to the dedicated staff that supported our students. As we enter August we will continue to prepare our building for the start of the 23/24 school year. Our maintenance and custodial staff have been cleaning, painting and moving furniture around to ensure that our students return to a clean and safe school environment.

Along with preparing for the school year, it is important that I introduce myself to the community. I have met some of you through your children this summer, however there are many new faces I will need to learn. A little about me! My name is Norma DiRocco and I am entering my tenth year in the education field. I moved to Wolfeboro with my family in January and was thrilled at the opportunity to work in the Wakefield community. When I am not in the building I can be found in the woods mountain biking, hiking and my favorite skiing! I am most excited about meeting all the students and learning and growing with the Paul School community. I have an open door and welcome the opportunity to meet anyone who would like to come in this summer. During the school year, please kindly set an appointment to meet with me when/if needed.

Our leadership team spent time thinking about three common goals the Paul School will continue to grow toward. We will spend our opening days as a collective staff getting to know each other and building our school community around these goals. We will be developing systems together that support the strengths of staff members and effectively create positive school experiences for students. As we prepare for our school year we can all be mindful that our goals reflect the common entity of students first. I look forward to working with all of you!

Warmly,
Norma DiRocco
