

BUILDINGS AND GROUNDS MANAGEMENT

The superintendent will have the general responsibility for the care, custody and safekeeping of all school property, establishing such procedures and employing such means as may be necessary to discharge this responsibility.

At the building level, the principal will be responsible for overseeing the school plant and for the proper care of school property by the staff and students.

In the event the district receives money from the state School Building Aid program, the superintendent will develop a 20-year maintenance plan, as required by statute.

The development of a maintenance plan is not required for school districts already receiving building aid.
